

Crear Cuenta en GitHub

Crear una cuenta en GitHub

Crear una cuenta de GitHub es muy sencillo. Tan sólo se necesita disponer previamente de una cuenta de correo electrónico (gmail, etc.):

1. Abra la página <https://github.com>.
2. Rellene los campos:

The image shows the GitHub logo, which consists of a stylized octocat (a cat with eight legs) in a light gray color, positioned to the left of the text. The text is white and set against a dark gray background. The main heading 'Built for developers' is in a large, sans-serif font. Below it, a paragraph describes GitHub as a development platform inspired by the way developers work, mentioning its use for open source, business, code hosting, review, project management, and software building, and noting that it is used by millions of other developers.

Built for developers

GitHub is a development platform inspired by the way you work. From **open source** to **business**, you can host and review code, manage projects, and build software alongside millions of other developers.

3. En la pantalla siguiente, elija el tipo de cuenta (que se puede cambiar posteriormente):

Welcome to GitHub

You've taken your first step into a large

4. En la pantalla siguiente, conteste si lo desea unas preguntas simples sobre sus intereses en GitHub:

The screenshot shows the GitHub welcome page. At the top, it says "Welcome to GitHub" in a large, bold, blue font, followed by "You'll find endless opportunities to learn" in a smaller, grey font. Below this is a progress bar with two steps. The first step, "Completed Set up a personal account", is highlighted with a green checkmark. The second step, "Step 2: Choose your programming level", is indicated by a green square icon. Below the progress bar is a question: "How would you describe your level of programming experience?". There are two radio button options: "Totally new to programming" and "Somewhat experienced with programming". The "Totally new to programming" option is selected.

Welcome to GitHub

You'll find endless opportunities to learn

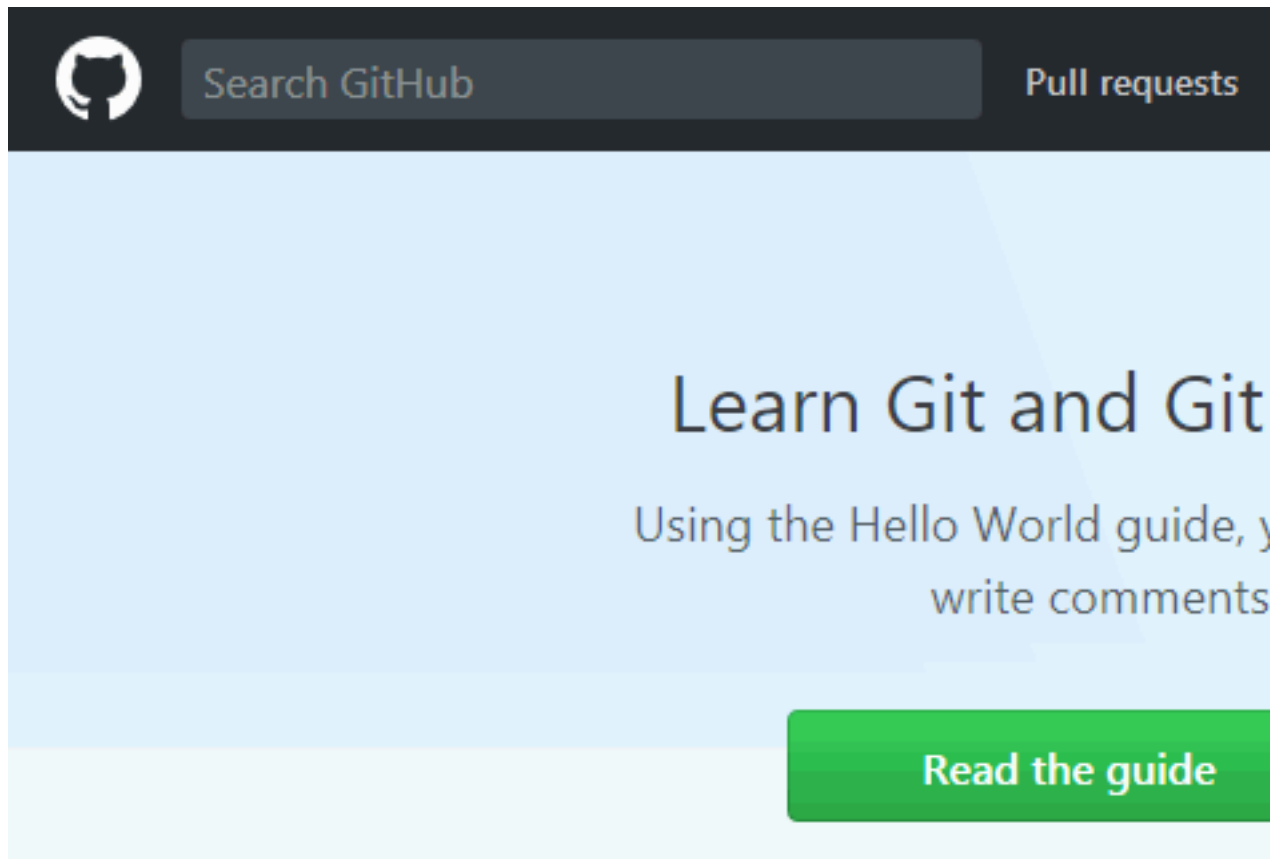

**Completed**
Set up a personal account

**Step 2**
Choose your programming level

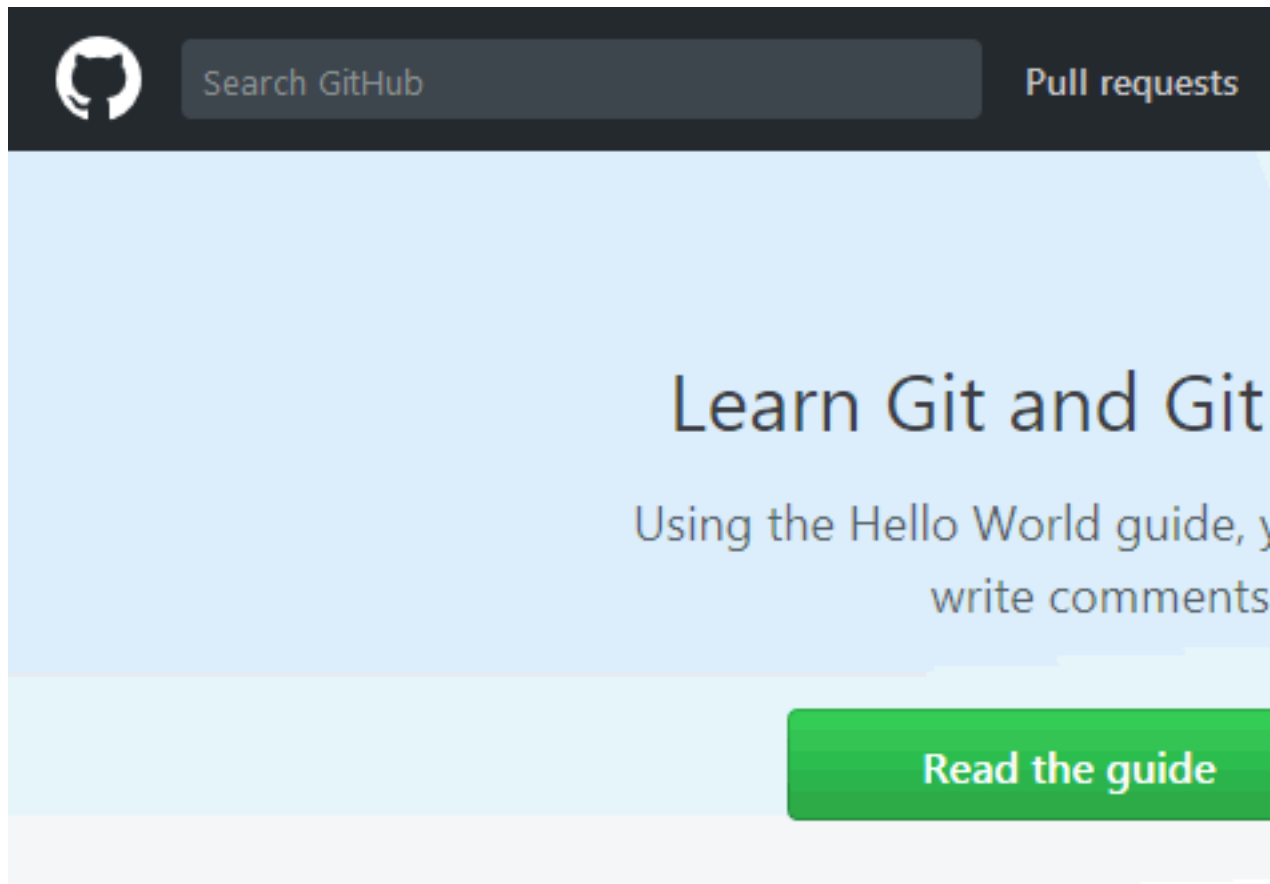

How would you describe your level of programming experience?

☒ Totally new to programming ☐ Somewhat experienced with programming

5. La pantalla final ofrece la posibilidad de seguir un tutorial o crear directamente un repositorio:

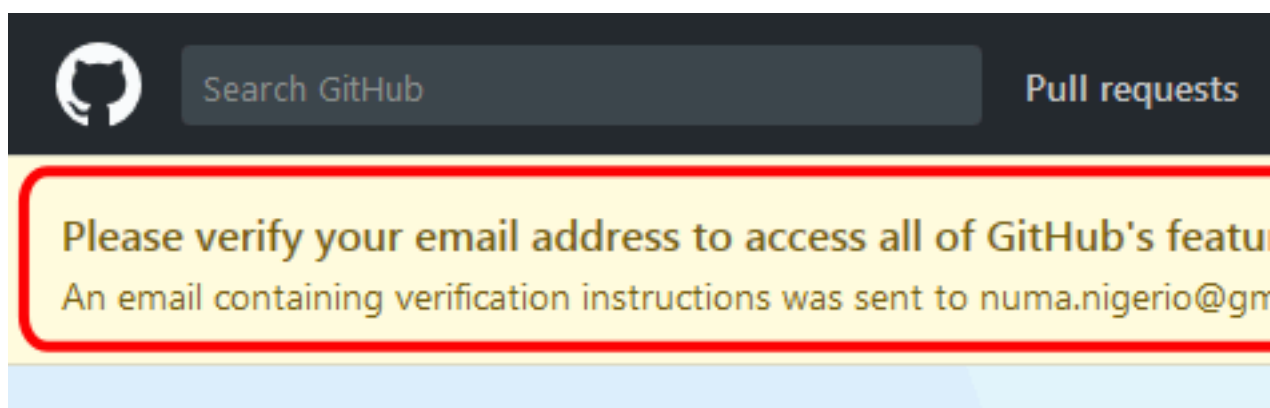

6. Para salir de GitHub, haga clic en el icono superior derecho y elija la opción "Sign out":

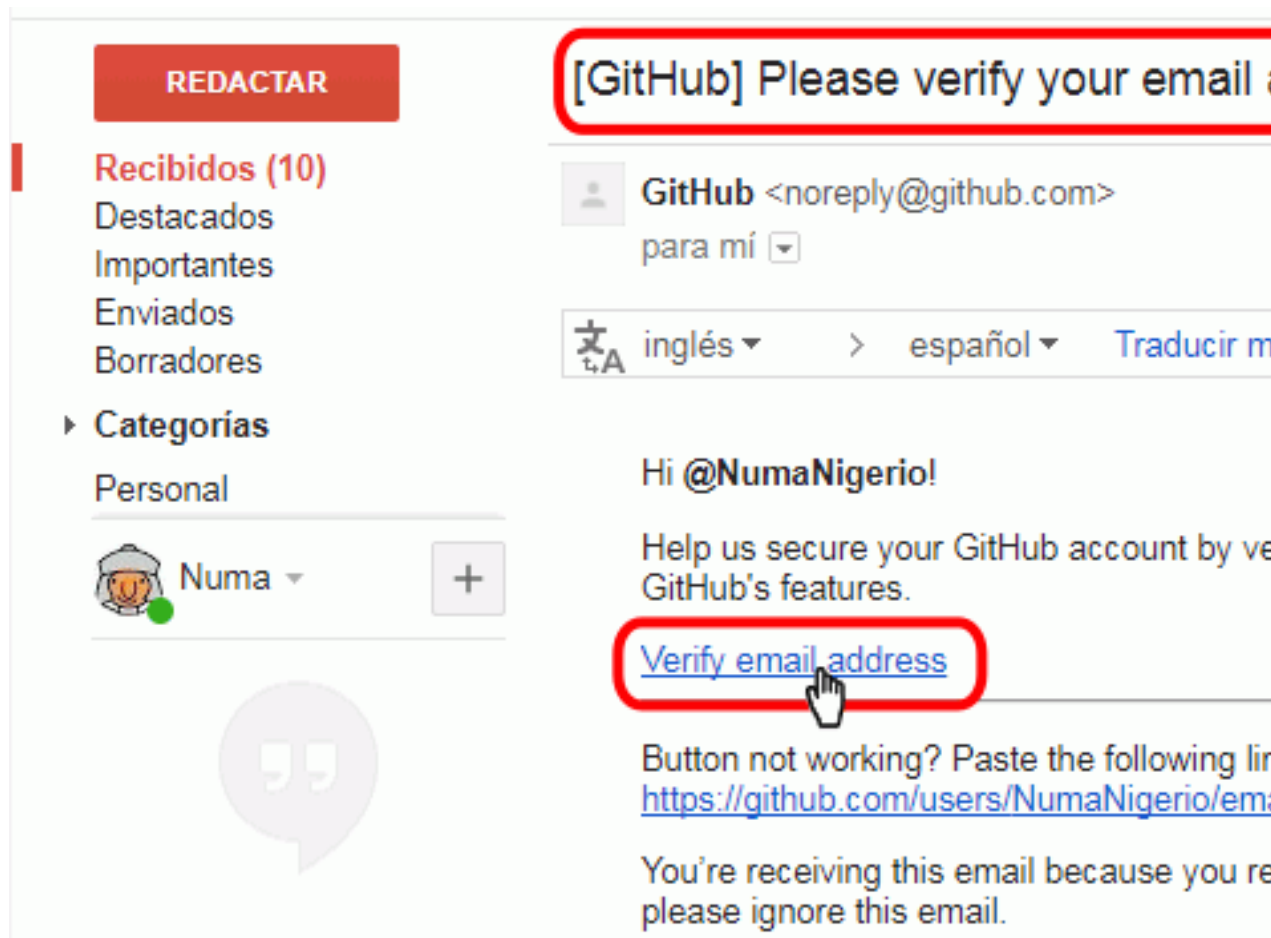

Verificar cuenta de correo

Al crear la cuenta, GitHub envía un correo electrónico a su cuenta de correo para confirmar que la cuenta de correo es correcta.

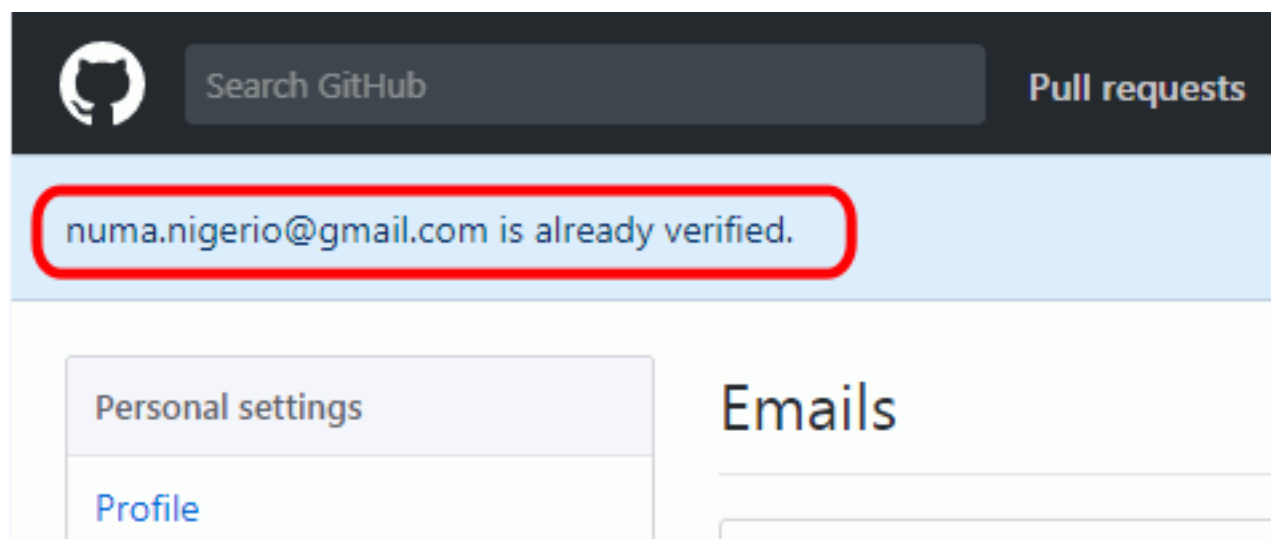

1. Si no verifica la cuenta de correo, GitHub le recordará que debe hacerlo:

2. Abra su cuenta de correo y en el correo remitido por GitHub, haga clic en el enlace "Verify email address":

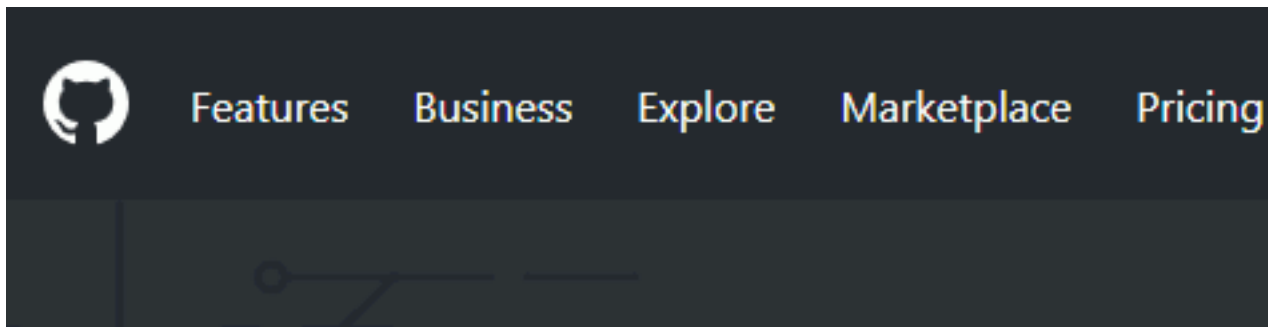

3. Se abrirá una nueva pestaña en la sección de cuentas de correo de la página de configuración de la cuenta de GitHub y se mostrará un mensaje indicando que se ha verificado la cuenta:

Entrar en una cuenta de GitHub ya existente

1. Abra la página <https://github.com>.
2. Haga clic en "Sign in", situado arriba a la derecha:

3. Escriba la dirección de correo y la contraseña de su cuenta y haga clic en "Sign in":

The image shows the GitHub sign-in page. At the top is the GitHub logo. Below it is the text "Sign in to GitHub". The main form is a light gray box containing three red-outlined input fields: "Username or email address", "Password", and a green "Sign in" button. To the right of the password field is a blue link "Forgot password?". Below the form is a light gray box with the text "New to GitHub? Create an account.".

4. Se mostrará su página de GitHub (en este caso, la página inicial, sin repositorios creados):
